Easy as 1-2-3
For quick, accurate quote, please advise:
1) Size — Please advise the widest and tallest points.
2) If background is a twill (cloth) material or 100% (“Solid”) embroidery.
3) Color placement of all details, wording, backgrounds and borders.

Shapes & Emblem Border
More info: Shapes WITHOUT sharp indentations or difficult cuts will be made with a merrowed (overlock) border, which is strong and prevents fraying.
When the shape of an emblem does not allow for a merrowed border (chevrons, county outlines, etc.) we’ll “steam stitch” the border and “hot knife” the edge to avoid fraying. (“Hot knife” is sometimes referred to as “taster cut.”)
Hint: When sketching your emblem, allow 1/8” width for the border.

Contrast is Good
You want your lettering and details to be as visible as possible, so avoid light on light colors such as light blue or yellow on a white background. Likewise, avoid dark on dark, such as black or red on royal.

Lettering Sizes

Main lettering: Your emblem’s main lettering should be large and bold enough to convey your emphasis.
Use as guide: 1/4” or taller letters for a 3” patch, 5/16” or taller for a 4” patch and 3/8” for a 5” patch.

Other lettering:
- Embroidered lettering looks best if 1/4” or taller.
- 3/16” letters are also clear, but not as clean as 1/4” letters.
- 1/8” lettering is usually legible, but less-than-good quality, and not recommended.

Lettering smaller than 1/8” might be representational, but will most likely not be legible.

Lettering Styles

Bold is recommended. Bold lettering allows for clean, sharp clear stitching.
Black style letters are best, though script and “serif” fonts are fine depending upon size.
Lettering usually looks best if it follows the curve of the border.

Hint: For close approximation of the embroidered thickness of lettering, use a thicker “marker” for main lettering and a thinner ‘marker’ for smaller letters. If a ball-point pen is needed to fit the lettering, consider abbreviating (County → Co, etc.). (Feel free to submit “as lettered” and we’ll clarify as necessary.)

More info: Avoid outlining letters with another color, which looks good in printing, but does not translate well to embroidery, due to the thin outline stitching.

Design Elements

Whether you are from Hawaii or Florida, we’ve got your state seal. We’ve also got your Rottweiler, deer, airplane, gun, eagle, dragon, pika polo and more! Cut any design from any catalog or magazine and paste into your new design. Or send a photo of your landmark, City Hall, clock tower, waterfall, bridge, fire engine, etc.

More info: When submitting your design, please indicate if the black outlines in the drawing should actually be stitched as black outlines, or if the details should be the “inside” color and “Stitched to show the details.”
When ordering, please send available clarification, such as letterhead, magazine cutouts, tags, photos, etc.

We’ve got your state seal so no reason to send clarification!
